SPECIAL REPORT ON IMMIGRATION

Italy and Hungary Regard United States as Adjuncts or Colonies.

IMPOSITION BY ARMENIANS.

Get Naturalized, Return and Defy the Turkish Laws-Thousand American Citizens in Jerusalem Alone.

Washington, Jan. 17 .- In response to the Sulzer resolution passed by the house, Secy. Metcalf of the department of commerce and labor teday sent to the house the report of Special Immigration Inspector Marcus Braun, which deals at great length with the character of the immigrants coming to this country and the attitude of the European governments upon the matter. Mr. Braun declares that he has incontrovertible evidence that, while the number of aliens shipped to this country who are legally inadmissible due to disease is diminishing, immigrants inadmissible for other reasons are constantly brought into the country in large numbers "by the concerted action of some European governments and

some European governments and steamship agencies, by bankers and schemers of all sorts."

He declares that while these govern-ments have laws ostensibly intended to restrict immigration, instead of doing so they actually encourage it by keeping alive "the patriotic spirit of the fatherland in the minds of these colonists," by representing that unless they adhere to the principles of nome patriotism itleir governments would leave them without protection in "bar-

bario America."
This is especially true, Mr. Braun says, in Italy and Hungary. He asserts that these countries regard the United States in the attitude of adjuncts or colonies of their own, and by their instructions and teachings to immigrants benefit accrues to the home government to the detriment of this country. He cites the fact that \$50,000,000 was sent last year from the United States to Austria-Hungary alone from these imbario America.' Austria-Hungary alone from these im-

censed and privileged by the Hungarian government. Mr. Braun narrates at length his interviews with Hungarian officials, and quotes Premier Tisza as saying that bills introduced in Congress tending to restrict immigration are regarded as unfriendly acts toward the igovernment of Hungary.

He states that in order to discourage Hungarians from becoming Americancitizens the precaution is taken to advocate the establishment in the United States of Hungarian homes, schools, churches and institutions, the intention of which is to avert "the terirble danger" of Hungarians becoming naturalized.

Mr. Braun then takes up immigration Turkey, Asia Minor and Syria Speaking of the Armenians, he says that they have invented a system whereby they can stay in Turkey and at the same time defy Turkish laws. This system consists of a large number of Armenians emigrating to the United States, and as soon as they have earned sufficient money for their need they return supplied with American citizenship papers and are contin-

The same is true in Syria and Pal-estine. In this connection he quotes from the governor of Mount Lebanon, saying: "If this constant travel from

"I had an eruption appear on my chest and body and extend upwards and downwards, so that my neck and face were all broken out; also my arms and the large lines as few as the broken. and the lower limbs as far as the knees. I at first thought it was prickly heat.
But soon scales or crusts formed where
the breaking out was. Instead of going
to a physician, I purchased a complete
treatment of the Cuticura Remedies, in which I had great faith, and all was satisfactory. A year or two later the eruption appeared again, only a little lower; but before it had time to spread I procured another supply of the Cuti-cura Remedies, and continued their use until the cure was complete. It is now five years since the last attack, and have not seen any signs of a return. I have taken about three bottles of the Cuticura Resolvent, and do not know how much of the Soap or Ointment, as I always keep them with me; probably

one half dozen of each.
"I decided to give the Cuticura Remedies a trial after I had seen the results of their treatment of eezema on an infant belonging to one of our neighbors. The parent took the child to the nearest physician, but his treatment did no good. So they procured the Cuticura Remedies and cured her with them. When they began using Cutieura Remedies her face was terribly disfigure sores, but she was entirely cured for I saw the same child at the age of five years, and her mother told me the eczema had never broken out since. I have more faith in Cuticura Remedies for skin diseases than anything I know of. I am, respectfully yours, Emma E. Wilson, Liscomb, Iowa, Oct. 1, 1905." Vilison, Lisconino, Iowas, Oct. 1 1900.

cites a number of instances of the fraud which these people practise and declares that 99 per cent of them speak not a word of English and most of them did not know the street of the city in which they claimed to have resided while in the United States.

Regarding immigration from Italy he says that an Italian subject may leave that country for any place on the globe except the United States without a passport. He is required to pay a fee of eight lire for a passport to the United States, and from this the government derives the revenue.

He further declares, upon the statements of bankers and steamship agents, that the amount annually received in

that the amount annually received in Italy from Italians in this country averages \$1 a day for every Italian in this country. It is openly stated, he says, in the Export Revue, a 'semi-official organ of the Austrian govern-ment, that three-fourths of the immigrants leaving that country for the Urited States come under contract and adding: "God forbid that the Ameri-

adding: "God forbid that the American government should read this."

There is a tendency on the part of the Austrian government, he says, similar to the government of Hungary, to keep a strong watch over their people in America, and every effort is directed toward two objective points, namely, to send us all the emigrants they possibly can for a temporary sojourn here, to earn money with which to enrich the land of their nativity upon their return and, secondly, to prevent such immigrants from becoming American citizens."

The emigration from the Turkish do-

The emigration from the Turkish domains, both European and Asiatic, says Mr. Braun, is nothing less than a menace to this country; from there we positively get the worst kind of people in the world.

Violations of the immigrant law will continue he declares, as long as there are agents and sub-agents of steamship companies working on a commercial basis. These violations are not confined to Europe alone but are flagrant in America. Bankers, publishers of newspapers in foreign languages, foreign clergymen and others doing business here are ardent missionaries, inducing immigrants to come here for purposes of exploitation, and are equally interested in the return traffic.

purposes of exploitation, and are equality interested in the return traffic.

The foreign priest and minister, he says, is a most dangerous meddler and political agitator. It has become a favorite expression, he says, to speak of "our colonies in America." He has a word of commendation for the Russian government. Once he becomes a resident of this country, Mr. Braun says, the Russian Jew stays, and his children become among the most patriotic and thriftiest of our citizens.

BIRMINGHAM RETURNS JOSEPH CHAMBERLAIN.

London, Jan. 17 .- The most prominent feature of today's election returns is the wholly unexpected stand made by Birmingham. Not only were all of Joseph Chamberlain's seven candidates returned, but Mr. Chamberlain himself secured a majority of 5,000, while the

majority of others averaged 3,000. Even allowing that the Liberal can-didates were not very strong, as the seats were practically uncontested at the last general election, and though the Liberal organization was not as good as in other parts of the country, the results at Birmingham are of the highest importance. They prove the groundlessness of the Liberal contention that this general election has kill-ed the fiscal agitation for a generation

to come. Essides showing the confidence of Birmingham in Mr. Chamberlain, the results there go also to confirm what already has been noticed in isolated contests, that the candidates who openly professed protectionist leanings had good support in some cases and were

The outcome at Birmingham affords a striking contract. While Mr. Bal-cour stands discredited as a leader, with his supporters all swallowed up and himself angrily criticised from his own side, Mr. Chamberlain issued from the contest with flying colors. His courage to a large extent justifies him to persevere in his agitation, and he is in a position to argue that it was Mr. Balfour's timidity which lost the cam-

A considerable section of the Union-ists on the protectionist side had pre-dicted some such result, and it is now hinted that the party must in future ook toward Birmingham for hope and ruldance. It is too late for the results at Birmingham to have any great effect on the campaign as a whole.

Many of today's polls will not be de-

clared until tomorrow, but those pub-lished tonight show that the Liberal tide still runs strong. London has gone distinctly Liberal, no less than 12 seats showing Liberal gains. While the total gains of the Liberals for today number 22, the Unionists have made only one solitary gain. Viscount Castlereagh solitary gain, Viscount Castlereagh having wrested the seat from the Lib-erals at Maidstone. Portsmouth, which had previously been represented by two Unionists, today elected two Liberals, and this despite the fact that a fifth candidate, a Laborite, threatened to split the Liberal vote. The Laborite, however, came third, with a very large vote, the Unionists being at the bottom

Among the striking personalities in today's election were Sydney C. Buxton, postmaster general, and Dr. Thomas James McNamara, the writer on educational subjects, who were elected by enormous majorities for the Poplar division of the Tower-Hamlets and the North division of Camberwell, respectively, and John Hamsteley-Mactor tively; and John Hennicker-Heaton (Canterbury), East Vercey(south di-vision of Kensington); William Evans Goddon (Stepney division of the Tower-Hamlet); Evelyn Cecil (Astor Minor); Jesse Collings (Bordesley division of Birmingham); Viscount Morpeth (south division of Birmingham), and Hon. THE MOROCCAN CONFERENCE.

Mohammed el Torres Rather Looks to See it End in Disagreement.

ASKS SOLAR PLEXUS QUESTION

Why Don't They Hold a Conference Upon Russia and Establish Order There?" He Queries.

Algeciras, Spain, Jan. 17 .- The delegates of the Moroccan conference today took a day of leisure in order to enable the secretaries to get ready fortheir work, and indulged in private conversations among themselves or spent the time preparing with their junior colleagues for the discussion of the surveillance of contraband arms in Morocco, the first question to be discussed at the next meeting.

Ambassador White visited Gibraltar after he and Minister Gummere had after he and Minister Gummere had gone over the political situation in aforecce regarding illief trade in arms. When the conference shall agree on regulations for the punishment of foreigners engaged in smuggling arms into Morocco, most of the countries, including the United States, will have to legislate on the subject as only Great. legislate on the subject, as only Great Britain and Spain can by orders in council penalize their subjects abroad. While the talk among the ambassa-dors is all of conciliation and harmony, Monammed el Torres, the Moroccan foreign minister and head of the mission of Morocco, and Mokri, the sul-tan's principal agent, do not believe that the conference will agree.

Budgett Meakin, an eminent authority on Morocco, had a prolonged conversation today in Arabic with Mohammed el Torres, and repeated to the Associated Press the Moorish views as follows:

Mohammed el Torres will be a pasdo not agree the conference until it enters the last stage. If the powers do not agree the conference will fall to pieces of itself without the Moors lifting a finger. If, however, the powlitting a finger. If, however, the powers accept a general plan of control of Morocco, the sultan cannot be asked to submit to anything that will insult the faith or provoke a rebellion among his own people. The powers will hesitate before facing an international military occupation of Morocco to impose a scheme of administrations.

"The Moors expect some power to take their viewpoint even were a gen-eral agreement attained. They pray much of the time for the Almighty to protect his faithful, and they trust that the powers of evil will fall into confu-sion. The whole of the Islam world is

sion. The whole of the Islam world is somewhat excited over the fate of Morocco, as it is the last independent Musulman kingdom of Africa.

"Mohammed el Torres expresses satisfaction at the fact that the conference will begin a dicussion of contraband arms, since this is one question on which Morocco is anxious to secure the intervention of the powers. The Moroccans contend that while the French and German governments nominally restrict contraband arms from entering Morocco, the great manufacturers of arms in France and Germany reap a harvest by the illicit intoduction of arms, thus fomenting anarchy and insurrection. Therefore Morocco is prepared to have the powers

archy and insurrection. Therefore Morocco is prepared to have the powers decisively stop this contraband trade.
"On the other hand some of the ambassadors fear that the contraband question may precipitate a crisis over the main Franco-German controversy as the surveillance of contraband arms involves the determination, whether involves the determination whether France alone shall patrol the coast or whether the powers shall establish an international patrol. The determinamay therefore bring up the principal

I called it stomach trouble or the lungs. I called it stomach trouble or nervous disorder, but, I kept coughing and spitting, and wasting away right along. I lost in weight, failing from 140 to 115 pounds. Somehow or other, I got hold of Dr. Acker's English Remedy for Throat and Lung Troubles, and after taking it according to directions, I was as well as any man in New York State. I was healthier and stronger than before I took the cold which came so near killing me. I now weigh 150 pounds—ten pounds more than ever. After recovering, I applied for a life insurance policy. When the doctor began examining me. I was afraid he would discover that my lungs had once been affected, but he didn't. I passed all right and was pronounced in first-class condition. If that isn't proof of the most positive kind that Dr. Acker's English Remedy is a great medicine, I English Remedy is a great medicine, I don't know what you call proof, I give it my warmest indorsement. GOV. GOODING ON THE STEUNENBERG MURDER.

A special to the Herald from Boise, Ida., says: Speaking of the probable difficulty to be experienced in getting a jury in Canyon county in the case of Harry Orchard, charged with the murder of ex-Gov. Frank Steunenberg, Gov. Gooding this evening said:

"It is quite certain that it will be the policy of Orchard's attorney to adopt some course to influence the minds of all prospective jurors in that county concerning the case, so as to disqualify them form acting. Especially is the defense anxious to get in work of this kind among the more intelligent men.

"It is to the interest of the prosecuting attorney to counteract what may be done in that line. We wish to guard against the possibility of men in Canyon county forming opinions in the case against Orchard. We understand fully the intense interest all over the country in this case and the anxiety for news of developments but we have decided that the best interests of the state demand that news of the work of detectives on the case and accounts of evidence secured by them be withheld until the case is brought for trial. What is of interest in the case that cannot possibly interfere with the plans of those who will handle the prosecution, will be given out gladly as it comes up.

HOLIDAY TRUCE IN RUSSIAN POLITICS OVER.

St. Petersburg, Jan. 17.—The holiday truce in Russian politics is over and the new political parties are mustering their strength for, Russia's first all-important electoral campaign. The opening guns will be fired when the delegates of the constitutional democrats will assemble to discuss their elaborate platform. The party represents the advanced liberal opinions of the zemstvo majority and the platform will closely follow resolutions of the last zemstvo congress. The allied moderate parties, which are standing on the basis of the manifesto of Oct. 39, will also be early in the field. There will be a conference of the leaders from various parts of the empire here this week. This coalition, which embraces the party law and order, the Octobrosts, and five lesser factions, has chosen the name of constitutional non-archists and will nominate candidates in common, realizing that singly they are too weak to meet the well orgaized costitutional democrats or even the social democrats and social revolutionists.

During the holidays the pacification of the country has been steadily going forward. By an unsparing use of the military and wholesale arrests of the leaders of the fighting organizations the revolutionists have been driven under ground and have been forced to return to their old methods of assassination. Not a day passes without reports of the murder of obnoxious officials. So far St. Petersburg has escaped owing to the demoralization of the terrorists here and the activity of the police.

PURPLE SCALE.

A Parasite Discovered in China That is A Deadly Foe of It.

San Francisco, Jan. 18.—Some months ago a parasite which kills the purple scale, a deadly foe of orange trees in southern California, was found in China. Many of its eggs were sent to this city by an agent of the state horticul-tural department of California, but unfortunately the eggs did not hatch. This failure suggested an attempt to bring the parasites here alive and in shape to do business, so a number of orange trees were shipped to China orange trees were shipped to China from this state, and upon their arrival there they were transported several hundred miles into the interior, to the province that is the home of the enemy of the purple scale. There the parasite made its home in the imported trees, which were then taken back to the sea court was trees the search of the coast, and after a time were placed on a coast, and after a time were placed on a steamer for San Francisco. They reached here on the last steamer in good condition after their long journey by sea and land, and are now being watched with constant care. If the parasites on them live and thrive, the problem of relief for the Southern California orange groves has been solved. If not, a second shipment of trees to China will be made.

To Pieces.

Portland, Or., Jan. 18.—A special to the Oregonian from Jacksonville, Or., states that three men were blown to pieces by an explosion of giant powder tonight shortly before 6 o'clock in the Opp mina, a mile and a half from the city. The dead:

William Broad.
Bert Coffman.
Fred Johnson.
So far the officials of the mine are unable to determine just what caused the explosion, but it is believed that the men killed had either dropped a box containing 50 pounds of giant powder or that the explosion followed an attempt by some one of the three men who were torn into shreds by the explosion, to break pone the box containing explosive. Tonight just as the night shift was going to work Broad. Coffman and Johnson, who did the blasting, entered the shaft with a box containing the powder. Fortunately they started several minutes before the rest of the gang were ready for work. The terrific explosion occurred just as the rest of the miners were about to enter the tunnel. The noise of the explosion could be plainly heard in Jacksonville. All the men leave families.

Chicago, Jan. 18.—Complaint has been made at several banks that depositors are being called by telephone and advised by persons whose identity is not known, to withdraw their deposits from the institution. The depositor is told with much evidence of confidence that he had better get his money out of the particular institution in which he happens to have it lodged. Depositors in three of the richest banks in the city have been given this unsolocited advice.
